

iPad Pro and DBP Sophie FileMaker Workshop

Learn about the powerful features which make iPad Pro the ideal solution for the workplace, and experience how DBP Solutions' Sophie Software based on the FileMaker platform running on iPad Pro can help transform your business.

Apple's iPad Pro is a personal computer for the modern business world. In fact, the iPad Pro's incredible power and speed mean it outperforms most portable PCs. And with the Apple Pencil, iPad Pro makes even the most complex work intuitive and natural. Powerful new software, like DBP Solutions' Sophie software suite for iOS running on Apple's FileMaker database platform, makes iPad Pro the ideal workhorse for your organization. Although specifically designed for facility and property management, construction and engineering, and building surveying, Sophie works in virtually any industry.

Join us at our offices in Times Square Causeway Bay to learn about how iPad Pro and FileMaker can help transform your business. [Register now](#), as space is limited.
