

Digitize Your Logistics Operations with SAP on iOS

Apple and SAP Solutions Workshop

Apple and SAP's new strategic partnership brings together SAP's world-class workflow expertise and iOS - the best mobile business platform to mobilize the enterprise. Learn about this new partnership, and experience a powerful iOS warehouse management solution which runs on SAP.

Apple and SAP formed a global strategic partnership to redesign industry-wide business processes with mobility at their core, codevelop new user-centric iOS apps, and create new tools and training to help SAP's 2.5M+ developers build intuitive apps that harness the power of iOS and SAP. Join Apple and SAP on Friday, March 3, 2017, for an overview of this new strategic partnership and what it means for the enterprise, learn about SAP's Extended Warehouse Management solution, and experience an innovative new iOS warehouse management solution which runs on SAP.
